

***Fluzone*[®] High-Dose**
INFLUENZA VACCINE

Dawson Travel & Immunization Clinic will be
having a Fluzone High Dose Clinic
Wednesday October 11, 2017
9:30am – 4:00pm.

The Fluzone High-Dose vaccine is designed specifically for people
age 65+ for a fee of \$80. (not covered by OHIP)

Fluzone High-Dose Influenza vaccine

- Seniors are at high risk for influenza related illness and it's serious complications.
- Older adults experience 70% of the influenza-related hospitalizations and 91% of the influenza-related deaths
- As people age their immune system generally weakens; lowering their ability to respond to infections and develop a sufficient immune response to vaccines.
- Seniors are more vulnerable to the risks of influenza and less protected from the regular influenza vaccine compared to younger adults.
- The new influenza vaccine (Fluzone High-Dose) has been shown to be 24% more effective than the standard vaccines at preventing Influenza.

**Please call the office 519-840-0106 if you would like to book an
appointment to receive this vaccine.**
